FOOD ENGINEERING

A CHILTON PUBLICATION
FOR BETTER MANAGEMENT IN MANUFACTURING

EDITORIAL INDEX

January to December, 1970
Volume 42

CHILTON COMPANY • Chestnut & 56th Sts., Philadelphia, Pa. 19139

ANNUAL EDITORIAL INDEX

January to December, 1970—Volume 42

A

Acids—Buffered Lactic Acid used extensively (at) (A) .....June *137
Activator—Solves flow problem (dib).Sept. *133
Additives
Additives affect color of canned beans (at) .....Jan. *120
Converts collagen to food additives. E. Elias, M. Komanowsky, H. I. Sinnamon, and N. C. Aceto .....Nov. *125
Radioisotope Tracing: for additive safety .....May *91
Air Pollution
Air pollution (nes) .....Sept. *197
Curbs air pollution (dib) .....Sept. *133
Mobile boilers help fight air pollution (pi) .....Nov. *113
Analyzer
Infrared moisture analyzer (nes) ..Nov. *205
Keeps carbonation constant .....Oct. *160
Particle size analyzer (nes) .....June *154
Aroma—Contributes to aroma of cooked chicken (at) .....Sept. *147
Aseptic Packer—Packs aseptically in milk-style cartons. Edmund J. Gruber, John V. Ziemba .....April *72
Aseptic Processing—Aseptic packaging system (nes) .....Jan. *126
Automation
Automates caramel apple-making ..Oct. *143
Automates creamery operations (at).Dec. *99
Automates popcorn production. Carl R. Havighorst .....Dec. *76
Breakthroughs in automatic loading .....March *86
Built from scratch. John V. Ziemba.Jan. *75

B

Bags—Bags are placed (nes) .....Dec. *103
Baked Goods
Flavor-color nuggets spur product development .....Feb. *50
Makes baked goods more nutritious. L. D. Williams, E. Sipos, and J. V. Ziemba .....Dec. *59
Ups nutrition of baked goods .....Nov. *50
Batching—Batching system (nes) ...April *127
Belts
Belt fastener (nes) .....Nov. *205
Food handling belt (nes) .....Sept. *187
How to spot and solve V-belt problems (pi) .....Jan. *95
Beverages
Adds tomato drinks in handy six-packs (np) .....Sept. *55
Cans beverages for added profit ..April *60
Coca-Cola offers new protein drink (pp) .....Oct. *61
Bins
Bin gate (nes) .....Dec. *107
Live-bottom bins (nes) .....Feb. *134
Polyethylene bin (nes) .....Dec. *103
Blender—Double cone blender (nes) .Jan. *132
Blending
Blending system (nes) .....July *149
Continuous blending enters new era. John J. Fischer and Richard A. Verwey .....Aug. *82
Blow Molding
Boosts speed of molding unit (np) .June *40
In-plant blowmolding (np) .....March *37
Boilers—Mobile boilers help fight air pollution (pi) .....Nov. *113
Bottling—New center serves 16 states.Sept. *103
Bread—Phony nutritional shock-wave hits bread. Frank K. Lawler ....Dec. 43
Bulkhead—Movable bulkhead (nes) ...Dec. *103
Buyers' Guide—Process equipment 1971 .....Nov. 141

C

Cake—Continental desserts for food service (pp) .....Aug. *40
Calculator—Calculator (nes) .....Jan. *125
Can Making—Teams coil shearing with can making. John V. Ziemba ....July *123
Canning
Cans beverages for added profit ...April *60
Determine gases in headspace (at) .June *138
New center serves 16 states .....Sept. *103
Carrot—Evaluate many uses for carrot flakes (at) .....Aug. *117
Cartoner
Cartoner features quick changeover (np) .....July *35
Cartons up to 125/min (np) ....March *34
Doubles pizza output (dib) .....July *117
Cartons
Packs aseptically in milk-style cartons. Edmund J. Gruber & John Ziemba .....April *72
Practical pointers on folding cartons. Stanley Sacharow. .....Jan. *72
Case Packer—Eliminates hand packing (np) .....Jan. *31
Case Sealer—Has air-operated gluing system (np) .....Aug. *28
Case Sealing—Improves case sealing (dib) .....Oct. *121
Cassava—Process enriches cassava with protein. J. Strasser, J. A. Abbott & R. F. Battey .....May *112
Centrifuge
Centrifuge (nes) .....Jan. *125
Horizontal centrifuge (nes) .....April *129
Cereals—Problem is empty heads, not empty calories .....Sept. 75
Charger—Battery charger (nes) .....Nov. *212
Chart Equipment — Circular chart (nes) .....June *148
Charts & Tables
Aids product formulation. Leonard Trauberman .....Feb. *105
Cleaning-up waste water .....July 65
Computes HTST processes .....Nov. *91
Continuous blending enters new era. John J. Fischer and Richard A. Verwey .....Aug. *28
Develops soy beverage process .....Nov. *92
Food firms big spenders .....Sept. *145
Formulas for poultry franks .....May 122
Freeze-dries applesauce. Abdul R. Rahman, T. R. Schmidt, E. E. Anderson, K. R. Johnson and D. S. Criz .....Nov. 136
How to evaluate margarine quality. M. E. Dritschel .....Oct. *90
How to make citrus whole fruit puree. Robert R. Cruse and Bruce J. Lime .....June *109
Improves protective properties of corrugated. Herman Weindel ....March *79
Ingredients: performance-use data.May *77
Makes baked goods more nutritious. L. D. Williams, E. Sipos and J. V. Ziemba .....Dec. *59
New dairy foods opportunities and obstacles. B. H. Webb .....Aug. *104
Prevents whey pollution recovers profitable by-products. Bernard S. Horton .....July *81
Process enriches cassava with protein. J. Strasser, J. A. Abbott and R. F. Battey .....May 112
P/HI index: better way to cure meat. Gerald M. Cooper .....June *82
Prolongs produce freshness .....Jan. *116
Pure fish protein. Frank K. Lawler.Aug. *61
Spices at a glance .....May 84
These salad dressings are really creamy. W. K. Stone and P. M. Large .....May *79
Which floor surface? R. F. Ytterberg (Part I) .....Sept. *125
Which floor surface? R. F. Ytterberg (Part II) .....Oct. *96
Checklist—Checklist of label legal requirements .....March 88
Checkweigher—Low-cost preformer (np) .....May *29
Cheese
Automates cheese production (at) ..Nov. *135
Duplicates flavor of cream cheese (i) .....Sept. *69
Improve Italian cheese .....May *202
Makes cheese in a metal building ..Sept. *102
Makes cheese in 5½ min. .....June *162
R. & Ds low-cost dairy-like cheese. John V. Ziemba .....Aug. *48
Smoothes snack-coating. Dean Southworth and John V. Ziemba .....May *82
Top-quality cultures made in unique plant. John V. Ziemba .....Jan. *68
Chloride—Decolorizes oil (at) .....June *138
Chlorination—Chlorine ions remove milk films (at) (A) .....July *133
Chocolate
Chocolate drink base easy to prepare (i) .....April 43
High protein drinks for hungry world .....April *91
Inhibits bloom in chocolate (at) ..April *113
Chromatograph—Low-cost liquid chromatograph .....Oct. *49
Chromatographic — Identify 87 compounds in whiskey (at) .....Nov. *135
Chromatography — Reduces FFA in milk (at) .....Jan. *119
Cider—Advances Vinegar Production. James A. Rowse and David F. Rowse and Julius Brody .....June *86
Citrus Fruit
Curb citrus decay (at) .....Nov. *135
Precool citrus fruit by new system (at) .....Nov. *135
Citrus Juice—Ships juice in unit train.Sept. *208
Clams—Heat shucks clams. William H. Riggin .....Aug. *89
Cleaner—Brush cleaner (nes) .....April *125
Cleaning
Cleaning system (nes) .....Sept. *189
Makes difficult cleaning easy. Lawrence Carpenter and Richard Loevinger .....Dec. *68
Closures—Tie with wire ribbon (np) .Jan. 27
Coaters—What, no primer? (ppo) ...Jan. 25
Coatings
Barrier-coated board resists fat, water (np) .....March 29
Rust-proof coating saves equipment cost (sm) .....Dec. *111
Zinc coating available in spray cans (sm) .....Dec. *112
Coding—Armour color codes meat-spice cartons (pi) .....March *109
Coffee—Pouch-packs coffee (dib) .....May *130
Collector—Dust collector (nes) .....Feb. *132
Color—Intensifies the color of orange juice (at) .....April 113
Color Ratiometer—Evaluates product color .....Jan. *144
Compounds—Anchoring compound (nes)Oct. *149
Computer
At Sara Lee computer controls quality. Andrew Wolf .....Dec. *50
Computer analyses cut product giveaway (pi) .....Feb. *95
Computerized analysis speeds process control. D. T. Winski .....May *88
Computerizes mass spectrometry. Dr. R. Erickson and P. Vallon ....Oct. *130
Computerizes packaging. Dennis Palmer and James R. Russo ....Oct. *74
Computer-controlled (nes) .....May *191
Computer controls blending of 44 ingredients. E. M. Hargreaves ...Nov. *96
Computer rents for $352 per mo. (nes) .....Dec. *102
Computer selects pallet patterns ...May 210
Computes HTST processes .....Nov. *91
Digital computer closes control loop. Howard M. Wallenstein .....Aug. *76
Identifies IR spectra .....Aug. *130
Improves operation with new computer (dib) .....May *129
Update process control with digital computer. Dr. Charles F. Moore .June *118
Construction—Cuts construction time with block insulation (dib) .....June *121
Contact Freezing—Innovates fillet contact freezing. J. D. Baillie .....Oct. *137
Container
Container (nes) .....Sept. *187
Plastic containers (nes) .....July *149
Controller
Controller reduces LIN usage (nes).July *148
Speed controller (nes) .....Feb. *132
Controls—Tricks with electronic devices .....Feb. *78
Conveying
Keeps sugar free-flowing .....Oct. *88
Pipe carries current, heats product.Feb. 147
Pneumatic conveying paces efficient freezing, bin storage. A. W. Russ.June *84
Conveyor
Builds efficient 1600-ft. conveyor system from standard components, drives (pi) .....Oct. *101
Chooses 'stainless' for peeling tables (dib) .....April *105
Conveyor reverses product flow (pi) July *95
Enclosed conveyor cleaned easily (nes) .....Jan. *124
Food handling (nes) .....July *149
Heated conveyor troughs (nes) ....Jan. *130
Screw conveyors (nes) .....July *152

KEY TO DEPARTMENTS

(at)	Advances in Technology
(dib)	Doing It Better
(fl)	For the Lab
(i)	Ingredients
(ppo)	Packaging Pointers
(nes)	New Equipment & Supplies
(np)	New for Packaging
(pp)	New Packages & Products
(pi)	Practical Ideas
(sm)	Sanitation & Maintenance
(tm)	Tips to Management

Self cornering conveyor (nes) .....Jan. *125
Stainless steel conveyor (nes) .....May *181
Telescoping conveyor (nes) .....Jan. *130
Conveyor Belt—Conveyor belt wiper (nes) .....Dec. *103
Cooling—Precool citrus fruit by new system (at) .....Nov. *135
Corrosion
Slime and corrosion (nes) .....April *133
Water check curbs pump corrosion (pi) .....Dec. 81
Cost
Cuts damage cost 50%. Joseph E. Whalen .....Aug. *98
New methods cut costs. Dave Flanagan and J. W. Reynolds .....Aug. *94
Counter—Rotary counter (nes) .....Feb. *129
Cranberry—Pneumatic conveying paces efficient freezing bin storage. A. W. Russ .....June *84
Crusher—Safety crushes glass bottles (sm) .....Oct. *164
Crystallization—Crystallizes fats for uniform blending .....Nov. *80
Cultures—Top-quality cultures made in unique plant. John V. Ziemba..Jan. *68
Curing—P/HI index: better way to cure meat. Gerald M. Cooper ....June *82
Cutters
Centralizes meat-cutting .....Dec. *109
Machine cuts poultry. Rex E. Childs..Nov. *84
Cyclamates
Cyclamates banned from all foods (i) .....Sept. *69
Low-cost substitute for cyclamates (i) .....Oct. 56

D

Dairy—MSU surveys dairy packaging (ppo) .....Feb. 25
Dairy Products
Improves keeping quality of low-fat dairy spread (i) .....April 43
New dairy foods opportunities and obstacles. B. H. Webb .....Aug. *104
Non-dairy topping is ready to whip (i) .....July *59
R & Ds low-cost dairy-like cheese. John V. Ziemba .....Aug. *48
These salad dressings are really creamy. W. K. Stone and P. M. Large .....May *79
Data System—Data analysis system . . . controls packaging costs .....April *118
Dates—Brings products out of hiding.June *56
Deboner — Gently debones poultry. James R. Russo .....Feb. *98
Deboning—Deboning system boosts yield .....Oct. *78
Deicer—Melts ice instantly (sm) ....Dec. *111
Dessert
Continental desserts for food service (pp) .....Aug. *40
Packs desserts as snacks. Mary Feilke .....April *40
Reformulates desserts with fructose (pp) .....Nov. *61
Detectors
Detecting fires instantly .....Feb. *82
Detects faulty heat seals .....March *40
Detects loose lids (np) .....March *37
Detects pinholes in packaging film (at) .....Jan. *119
Determines 'fouling factor' (nes) ..July *148
Level detector (nes) .....Feb. *129
Nomograph quickly tells tank contents (pi) .....Dec. 81
Diagram
Anheuser-Busch integrates production complex .....Sept. *94
Design for minimum costs. G. Robert Johnson .....Sept. *84
Forms product while filling into cans. W. Baumruk & John V. Ziemba .....April *88
Meets changing needs .....Sept. *88
Thermal processing goes fully automatic. R. R. Proctor & John Ziemba .....April *51
Dicer—Continuous dicer (nes) .....Sept. *187
Dietary Foods
Dietary foods: from soup to nuts. Carol A. Jakob .....May *134
New diet food comes in powder, liquid forms (pp) .....April *36
Digital Computer—Digital computer closes control loop. Howard M. Wallenstein .....Aug. *76
Digital Control—Teams digital control with advanced process .....Aug. 73
Directories
Architects—engineers builders .....Sept. 185
Quik-chek ingredients directory ....May 172
Quik-chek packaging directory ...March 146
Quik-chek plant directory .....Sept. 160
Discoloration—Factors affecting tuna discoloration (at) (A) .....July *133
Discolorer—Causes and prevention of egg discoloring (at) (A) .....July 133
Disposable — Disposable pan bows (np) .....March 29
Disposal—Disposal developments aid processors .....July *76
Distribution—Cuts distribution costs (tm) .....Jan. 23
Distribution plant—Hormel opens all-in-one plant .....Sept. *98
Door—Profits with new freezer-door design (dib) .....June *121
Dough—Buttermilk powder for continuous dough (i) .....Feb. 57
Dressing—Advances dressing process. V. R. Carlson .....Dec. *54
Drier—Pilot plant drier (nes) .....April *127
Drinks—Chocolate drink base easy to prepare (i) .....April 43
Dryer
Pulverizer-dryer (nes) .....Nov. *208
Rotary dryer (fl) .....Sept. *199
Dumper
Dump cart (nes) .....Dec. *103
Hydraulic dumper (nes) .....Feb. *129
Dust Collector—Dust collector (nes) .April *129

E

Economics—Super-affluence will bring big changes in '70s. Frank K. Lawler .....Feb. 63
Economies—New concrete-building techniques offer economies (pi) .....Sept. *107
Egg
New egg albumen easily rehydrated (i) .....April 43
Stability factors in egg emulsion (at) .....April 113
Egg Carton—How to win . . . at 'the old shell game'. Kevin J. Hannigan .....March *54
Electrode—PH electrode (nes) .....Dec. *104
Electronics
Canadian officials OK electronic weighing (pi) .....Sept. 107
Tricks with electronic devices .....Feb. *78
Employee Facilities—Latest in employee facilities. D. F. Richards .Sept. *114
Enzymes
Enzyme aids release of stockinettes (pi) .....Oct. 103
Enzyme splits hemicelluloses (i) ..Aug. 53
Enzymes hydrolyze vegetable protein (at) .....Feb. 119
Epoxy—Which floor surface? (part I) R. F. Ytterberg .....Sept. *125
Which floor surface? (part II) R. F. Ytterberg .....Oct. *96
Equipment
AC brakemotor (nes) .....Oct. *149
AC motor (nes) .....Aug. *126
Air compressor (nes) .....June *142
Air curtain (nes) .....July *150
Air pollution (nes) .....Sept. *197
Automatic washer (nes) .....Oct. *149
Batching scale (nes) .....Sept. *195
Battering & breading machine (nes) Nov. *205
Bin diverter (nes) .....May *181
Blender (nes) .....Oct. *155
Broiler comes in modules (nes) ..March *168
Bucket elevators (nes) .....April *136
Calculator (nes) .....Aug. *123
Case stacker (nes) .....Sept. *191
Ceramic foam used as insulation (nes) .....Sept. *186
Chopper (nes) .....Aug. *123
Cleaning system (nes) .....Sept. *189
Clips 80 chubs/min (np) .....Oct. *44
Comminuting machine (nes) .....April *125
Computer rents for $352 per mo. (nes) .....Dec. *102
Connects plastic pipe fast (nes) ..March *168
Container (nes) .....Sept. *187
Container holds 225 gal (nes) .....Oct. *148
Continuous dicer .....Sept. *187
Controller reduces LIN usage (nes)..July *148
Cookie machine (nes) .....Aug. *128
Cooler/freezer (nes) .....Aug. *123
Curd washer (nes) .....Sept. *193
Data logger (nes) .....July *154
Deaerator (nes) .....March *179
Delivers product into trailer (nes).June *142
Density (nes) .....Aug. *128
Density meter (nes) .....Sept. *189
Depositor (nes) .....March *179
De-sludger (nes) .....July *154
Dessert line (nes) .....Nov. *211
Determines 'fouling factor' (nes)...July *148
Diaphragm valve (nes) .....March *179
Disposable pallet (nes) .....Jan. *125
Dust filter (nes) .....June *157
Easy-clean motor (nes) .....Dec. *103
Evaporates 'problem products' (nes)Sept. *186
Flexible hose (nes) .....May *191
Flow controller (nes) .....Sept. *187
Flow indicator (nes) .....March *177
Flow meter (nes) .....March *174
Flow switch (nes) .....July *156
Fluid analyzer (nes) .....Aug. *128
Fluid filter (nes) .....March *179
Flume scrubber (nes) .....Sept. *193
Food handling belt (nes) .....Sept. *187
Freeze-drying system (nes) .....Oct. *151
Freezing system (nes) .....May *181
Fume incinerator (nes) .....May *189
Heating system (nes) .....July *159
Homogenizer (nes) .....June *154
Hot melt adhesive applicator (nes).Sept. *193
How to spot and solve v-belt problems (pi) .....Jan. *95
In-line pump (nes) .....Aug. *127
Incinerator (nes) .....June *146
Information (nes) .....March *170
Infrared (nes) .....Sept. *189
Infrared thermometer (nes) .....Jan. *126
Infrared thermometer (nes) .....Sept. *187
Injector instantly heats water 500 deg. (pi) .....Nov. *113
Inspection (nes) .....June *146
Inspection lights (nes) .....June *143
Instant shelter (nes) .....Sept. *197
Jacketed sanitary mixer (nes) .....June *143
Keeps pipeline from clogging (nes) .Feb. *128
Level detector (nes) .....July *154
Level gage (nes) .....April *136
Level gage (nes) .....May *189
Lift-gate folds under truck (nes) .June *142
Lightweight plastic pallet (nes) ....Nov. *204
Live-bottom feeder (nes) .....May *184
Live brine (nes) .....Aug. *127
Live roller (nes) .....May *196
Load controller (nes) .....June *146
Lubrication (nes) .....Nov. *208
Luminaire (nes) .....June *143
Makes sponge continuously (nes)..March *168
Makes variety of filled snacks (nes).Feb. *128
Measures thickness, no contact (nes) .....Dec. *102
Meat dicing system (nes) .....Aug. *126
Meatball former (nes) .....March *172
Meat-patty machine (nes) .....Sept. *187
Meat rail (nes) .....Oct. *152
Meat tenderizer .....Nov. *205
Mercury vapor (nes) .....Sept. *191
Metal separator (nes) .....March *170
Meters and mixes 2 liquids (nes) ..June *142
Mixer-deaerator (nes) .....Sept. *187
Mobile unit (nes) .....Sept. *193
Mobile vibrator (nes) .....Sept. *199
Monitors refractive index (nes) ....Oct. *148
Motors (nes) .....Nov. *205
New line (nes) .....Sept. *197
Non-stick surface (nes) .....Sept. *192
Oil skimmer (nes) .....Jan. *125
Operations monitor (nes) .....Nov. *211
Packs food in milk cartons (np) ...Oct. *40
Packs 36 bags per min with one operator (np) .....Jan. *29
Pager (nes) .....June *154
Pallet rack (nes) .....Sept. *191
Pallet racks (nes) .....June *157
Palletizer (nes) .....Aug. *125
Particle size analyzer (nes) .....June *154
Plastic drum (nes) .....July *157
Plastic piping (nes) .....Aug. *123
Plastic utility truck (nes) .....June *143
Pollution control system on tour (nes) .....Jan. *124
Polyethylene pallet (nes) .....Aug *125
Prefilter (nes) .....Jan. *132
Processed cheese (nes) .....Oct. *155
Product hang-up (nes) .....May *181
Prolongs service life of rubber type (pi) .....June *105
Purifier (nes) .....Sept. *195
Receiving system (nes) .....Sept. *187
Refractometer (nes) .....Jan. *128
Refuse is compacted (nes) .....June *143
Rod oiler (nes) .....Jan. *126
Roller chain (nes) .....Aug. *123
Sampling system (nes) .....Sept. *195
Security system (nes) .....March *174
Shrink tunnel (nes) .....Sept. *197
Shrink tunnel (nes) .....Oct. *155
Sieve frame (nes) .....Nov. *211
Sifter (nes) .....March *172
Sonic energy atomizes liquids (nes).May *180
Speed controller (nes) .....Oct. *149
Speed indicator (nes) .....Aug. *123
Speed reducer (nes) .....March *172
Stainless steel pump (nes) .....Aug. *126
Stirrer (nes) .....March *174
Storage tanks (nes) .....June *148
Strainer selector (nes) .....Oct. *149
Strapper (nes) .....July *157
Submicron filter (nes) .....June *148
Sweet goods extruder (nes) .....June *143
Swing away accessory (nes) .....Sept. *187
Tablet press (nes) .....May *194
Tanks (nes) .....Jan. *128
Teflon-coated belt (nes) .....May *181
Teflon tape (nes) .....Sept. *189
Temperature controller (nes) .....May *181
13 ways to ruin a gear reducer. Ronald V. Christgau .....June *128
31-day recorder (nes) .....Aug. *123
Timers (nes) .....Aug. *123
Tractor (nes) .....April *136
Truck deposit safe (nes) .....June *143
Ultrafiltration system (nes) .....Aug. *125
Vacuum stuffer (nes) .....Nov. *208
Valve easily installed (nes) .....Sept. *186

*** Illustrated. (A) Abstract. (e) Equipment. (ed) Editorial. (P) Patents.**

Versatile mixer has many uses (nes) ..... Nov. *204
Vertical lift (nes) ..... Aug. *127
Washes pallets automatically (nes) . May *180
Water sampler (nes) ..... May *196
Water softener (nes) ..... Sept. *199
White belting (nes) ..... March *170
Wiener peeler (nes) ..... June *143

Evaporation
Curbs evaporation in ponds (pi) .. Feb. 95
Feedforward control improves evaporation. A. E. Nisenfeld and D. L. Hoyle ..... July *100
Multi-stage evaporation gives 4:1 steam efficiency. Derek F. Dinnage ..... April *62

Evaporator
Evaporates large volumes ..... March *181
Evaporates 'problem products' (nes) Sept. *186

Extractor—Extracts crabmeat automatically ..... Feb. *36

Extruder
Cooker-extruder (fl) ..... Feb. *143
Snack food extruder (nes) ..... April *125
Sweet goods extruder (nes) ..... June *143

F

FDA
Challenge FDA's move to rule on nutritive values. Frank K. Lawler ..... March 71
Nader aide criticizes ..... Sept. *241
You wouldn't like Nader's kind of FDA. Frank K. Lawler ..... May 71
Where FDA is heading ..... Oct. 107
Why don't universities defend food industry? ..... July 63

FE Reports
Conference reports processing advances ..... June *94

FE Show Report
12 aids to efficiency ..... Dec. *52
18 ideas for progressive packers ... Jan. *84

FE Shows
Chem. show highlights ..... Feb. *88
14 units for efficient processing. (Kansas City poultry fact finding show) ..... April *103
Make operations more efficient. (Operating Millers' Show in Minneapolis) ..... Aug. *118

FE Special Reports—New ways to improve operations ..... April *76

Fat
Crystallizes fats for uniform blending ..... Nov. *80
Improve Italian cheese ..... May *202

Feeder
All-digital gravimetric feeder (nes) . Dec. *106
Vibratory (nes) ..... Jan. *128

Fermentation
Advances vinegar production. James A. Rowse, David F. Rowse and Julius Brody ..... June *86

Filler
Drum filler (nes) ..... April *127
High speed filler (np) ..... Nov. *41
Results . . . not size, count ..... March *137
Single-piston filler (np) ..... April *30

Filler & Sealer
Fills, seals packs in traveling mold (np) ..... July 33
New epoxy filler resists microbes (sm) ..... Oct. *163
Sets up, fills, seals foil containers (np) ..... Feb. *32

Films
All about shrinkable films (pp) ... May 33
Lists heat-shrink standards (ppo) . Oct. 37
Offers films that can breathe (np) . Sept. 35
Thin film (nes) ..... July *150
Thin film processor (nes) ..... Feb. *128

Filters
Dust filter (nes) ..... June *157
Dust filter (nes) ..... May *194
Filter system (nes) ..... Feb. *192
Improve scrubbing efficiency ..... April 114
Pressure filter system (nes) ..... Jan. *125
Purifies process air. Will Knepper . Jan. *122
Submicron filter (nes) ..... June *148
Wine filter (nes) ..... Dec. *106

Fish
Harvest fish electrically (at) ..... Sept. *147
Innovates fillet contact freezing. J. D. Baillie ..... Oct. *137
Specialty fish items swim into new markets ..... May *56

Fish Protein—Pure fish protein. Frank K. Lawler ..... Aug *61

Flavor Enhancer
Fresh lactose is versatile quality enhancer (i) ..... Sept. *67
Replaces MSG at 40% saving (i) . March 59

Flavors
Advances testing of flavors (at) .. March 141
Cheese and butter flavors. Gene Rondenet and John V. Ziemba ..... Oct. *69
Detect trace flavors in maple syrup (at) ..... April 113
Duplicates flavor of cream cheese (i) ..... Sept. *69
FFA affect flavors (at) ..... May 153
Flavor-color nuggets ..... Feb. *50
Nucleotides modify specific flavors (at) ..... June *137
Offers pop flavors for baked goods (i) ..... April 46
Offers spray-dried lime flavors (i) .. Jan. 51
Retains flavor during drying (at) .. Jan. *119
Strip high-boiling flavors (at) ..... Aug. *117

Floor
Which floor surface? R. F. Ytterberg (Part I) ..... Sept. *125
Which floor surface? R. F. Ytterberg (Part II) ..... Oct. *96

Flowsheet
Advances dressing process ..... Dec. *54
Advances fruit-waste treatment. James A. Rowse, Samuel B. Rowse and Julius Brody ..... July *84
Advances in Europe. Anthony H. Woollen ..... Nov. *76
Advances vinegar production. James A. Rowse, David F. Rowse and Julius Brody ..... June *86
Clarifies faster in less space. C. R. Havighorst ..... Dec. *56
Computer controls blending of 44 ingredients. E. M. Hargreaves .. Nov. *96
Crystallizes fats for uniform blending ..... Nov. *80
Cuts water use 50%. Walter A. Mercer ..... July *86
Deboning system boosts yield ..... Oct. *78
Engineers versatility in further processing. John V. Ziemba ..... Nov. *86
Feedforward control improves evaporation. A. E. Nisenfeld and D. L. Hoyle ..... July *100
How to save on refrigeration. Ron Cole ..... Dec. *64
Keeps sugar free-flowing ..... Oct. *88
Multi-stage evaporation gives 4:1 steam efficiency. Derek F. Dinnage ..... April *62
New methods cut costs. Dave Flanagan and J. W. Reynolds ..... Aug. *94
On line instruments control juice color, brix ..... Aug. *70
Packs aspetically in milk-style cartons. Edmund J. Gruber and John V. Ziemba ..... April *72
Pneumatic conveying paces efficient freezing, bin storage. A. W. Ruff . June *84
Protein and lactose from whey .... Nov. *75
Teams quality control with advanced processes ..... Nov. *71
What to know about clean room technology. Carl R. Havighorst .. Sept. *91

Fluidics—Fluidic sensors improve packing. Leonard Trauberman ..... Dec. *66

Fluidizer—Bin fluidizer (nes) ..... April *134

Food Expenditures—Food firms big spenders ..... Sept. 145

Food Industry—Rapid changes coming in food industry ..... May *225

Food Problems—Scientists to probe world food problems ..... June *159

Food Processing—Goes to continuous frankfurter system (dib) ..... Nov. *127

Food Service
Aluminum trays spur food service growth. Leo J. Fredette ..... March *112
Food-service packaging keeps pace with change. Roslyn Willett ... March *125
Gourmet sauces for creative cookery. John V. Ziemba ..... Jan. *44
Really big 'kitchen' operation. Larry Hayes and Clifford D. Earls .... June *71

Food Technology—Explains why Nader spoke at IFT meeting ..... Oct. 184

Fork Trucks—New line of fork lift trucks (nes) ..... Oct. *148

Formers, Fillers, Sealers
Forms five pouch styles on one machine (np) ..... July *33
Forms product while filling into cans. W. Baumruk and John V. Ziemba. ..... April *88
Packs flavored syrups in pouches . March 142

Formulas — Formulas for poultry franks ..... May *122

Formulations—Aids product formulation. Leonard Trauberman ..... Feb. *105

Freeze Drying
Freeze drying gaining slowly in Japan. Eiji Koyama ..... Jan. *103
Freeze-drying pioneer makes comeback. Frank K. Lawler and E. M. Hargreaves ..... June *75
Radical innovation in freeze-drying. C. R. Havighorst ..... June *134

Freezer—Drum freezer (nes) ..... Nov. *211

Freezer Doors—Special freezer doors curb air leakage ..... July *129

Freezing—Combines two freezing methods (nes) ..... Feb. *128

Frozen Desserts—Adds two varieties of dessert cakes (pp) ..... Oct. *61

Frozen Foods
Continental desserts for food service (pp) ..... Aug. *40
Frozen casseroles fit for a family (pp) ..... July *49
Frozen turnovers in five meat varieties (pp) ..... June *51
"Heat 'n serves" packed upside down ..... Nov. *66
New pop-up items: frozen sandwiches (pp) ..... Aug. *41
Platters for children. John V. Ziemba and Kevin J. Hannigan ..... Dec. *45
Soul foods come in heat and serve pans (pp) ..... June *50
Vegetables come in see-through packages (pp) ..... Aug. *41

Fructose—Reformulates dessert with fructose (pp) ..... Nov. *61

Fruit
Advances fruit-waste treatment. James A. Rowse, Samuel B. Rowse, and Julius Brody ..... July *84
Brings products out of hiding ..... June *56

Fruit Puree—How to make citrus whole fruit puree. Robert R. Cruse and Bruce J. Lime ..... June *109

G

Gas—Natural gas saves $25,000/yr. .. Dec. *100

Generators
Quick-chills boxed poultry ..... March *188
Steam generator (nes) ..... Feb. *129

H

Handling—Saves with unique handling system (dib) ..... Aug. *103

Heat Exchanger
Controls flour temperature ..... Feb. *86
Heat exchanger (nes) ..... Aug. *123
Heat exchanger (nes) ..... May *196
Helps find best process ..... July *44
Improves cooking of semi-solids. Ray Volan and John V. Ziemba . Nov. *94

Heat Seal
Carton cuts costs, guards quality .. March *121
Gives packages more protection. James R. Russo ..... Oct. *64

Heat Shrink—Offers 3 systems for varied needs (np) ..... Oct. 43

Heater
Electric strip heater (nes) ..... July *149
Water heater (nes) ..... May *199

Homogenizer — Increases viscosity (nes) ..... April *124

Hoppers—Discharge hopper (nes) ... Nov. *205

Hose—Water hose (nes) ..... Nov. *205

I

Imprinter—Saves space, waste (np) .. Oct. *43

Indicator
Flow indicator (nes) ..... Jan. *132
Pneumatic indicator (nes) ..... April *129

Infrared
Infrared (nes) ..... May *199
Infrared moisture analyzer (nes) .. Nov. *205

Ingredients
Bases ease processing of freezable puddings (i) ..... Jan. 51
Breading mix controls grease absorption (i) ..... Feb. *55
Buttermilk powder for continuous dough (i) ..... Feb. 57
Canada limits use of brominated oils (i) ..... March 57
Cereal chemists cite ingredient developments (i) ..... Dec. *31
Chemical "starter" for sausage making (i) ..... Aug. *53
Chocolate drink base easy to prepare (i) ..... April 43
Colloid replaces fats, starches (i) .. Aug. 58
Computer controls blending of 44 ingredients ..... Nov. *96
Crystalline dextrose versatile carrier (i) ..... March 57
Cyclamates banned from all foods (i) ..... Sept. *69
Demineralized whey has 35% protein (i) ..... Dec. *31
Fresh lactose is versatile quality enhancer (i) ..... Sept. *67
Improves extruded potato products (i) ..... Oct. *55
Ingredient prices up (i) ..... April 43
Ingredients: Performance-use data . May 77
Ingredients '70 ..... May *74
Launches research/PR program on MSG (i) ..... Jan. 51

Meat-like flavorings from autolyzed yeast (i) ....Dec. *34
Modified starch improves economy, efficiency of cast cream-center caramel production (i) ....June 63
N.D.G.A. replacements (i) ....March 57
New egg albumen easily rehydrated (i) ....April 43
New opaque starch for gravies (i) .Feb. 57
Non-dairy topping is ready to whip (i) ....July 59
Offers pop flavors for baked goods (i) ....April 46
Offers spray-dried lime flavors (i) .Jan. *51
Offers technical data on fructose, gluconate (i) ....March 59
Pillsbury enriches bakery mixes, bases (i) ....March 57
Polyphosphates aid egg pasteurizing (i) ....July 59
Process cuts cost of tapioca dextrins (i) ....April 47
Replaces corn grits in snacks (i) ..Feb. *55
Replaces cyclamates (i) ....Jan. *52
Replaces MSG at 40% saving (i) ..March 59
Sodium caseinate in granular form (i) ....Aug. 53
Stabilizer improves icings, glazes (i) ....April *46
Versatile flow agent absorbs 200% oil (i) ....June 63
What's new in functional ingredients. May 141
Whey-protein isolate improves many foods (i) ....Nov. *53
Inspection—Inspection table (nes) ...July *149
Installation—Uses fiberglass for reefer panels (dib) ....March 131
Instrument—Measures thickness, no contact (nes) ....Dec. *102
Instrumentation
Instrumentation adapts to changing needs ....Aug. *115
Instrumentation is cutting edge of progress. Frank K. Lawler ....June 69
Instruments—On line instruments control juice color, brix ....Aug. *70
Insulation
Ceramic foam used as insulation (nes) ....Sept. *186
Foamed insulation avoids contamination ....Dec. *97
Foams insulation in-place (dib) ...Jan. *107
Insulation (nes) ....Oct. *152
Proves efficiency of urethane roof insulation (dib) ....Sept. *133
Uses "black box" insulation system (dib) ....March *130
Inverter—Load inverter (nes) ....April *125

L

Lab Equipment
Aerosol lab unit (l.p) ....Dec. *24
Bacteria counter (fl) ....May *199
Balance (fl) ....July *179
BOD testing (fl) ....Nov. *216
Can shaker (fl) ....April *134
Colorimeter (fl) ....June *157
Contact freezer (fl) ....March *180
Cooker-extruder (fl) ....Feb. *143
Frozen food inspection kit (fl) ....Nov. *216
Gel tester (fl) ....April *134
Illuminated magnifier (fl) ....April *134
Laboratory benches (fl) ....Nov. *216
Mill (fl) ....Jan. *136
Protein test (fl) ....June *157
Research Fermentor (fl) ....June *157
Reverse osmosis (fl) ....June *157
Reverse osmosis (fl) ....July *159
Reverse osmosis (fl) ....Oct. *158
Rotary dryer (fl) ....Sept. *199
Shock recorder (fl) ....Dec. *107
Small sample pulverizer (fl) ....March *180
Sniffer set (fl) ....June *157
Titrator (fl) ....March *180
Torque indicator (fl) ....April *134
Ultrafiltration (fl) ....Jan. *136
Ultrasonic mixer (fl) ....Dec. *107
Vacuum pump (fl) ....Aug. *129
Vibrating sieve (fl) ....Jan. *136
Vibratory screen (fl) ....Nov. *216
Labeling—Prints, applies 100 labels per min. (np) ....Oct. *40
Labels—Processor salvages pre-printed labels (pi) ....Feb. *95
Law & Legislation
Consumer strikes again (ppo) ....Sept. 31
Delaney clause must go ....May 73
Leasing
Gains by leasing railroad cars (dib) Aug. *103
Saves by leasing its boiler (dib) ..March *129
Lift Gate—Lift-gate folds under truck (nes) ....June *142
Lift Truck
For lift-truck safety (pi) ....Jan. *95
Lift truck (nes) ....May *189
Lift truck also weighs load (nes) ..Dec. *102
Lift truck mast (nes) ....July *157
Simplifies heavy handling. Ed. Lipman ....June *139
Work platform (nes) ....June *152
Liquid Level—Refrigerant level (nes) .July *149
Liquid Nitrogen — Liquid nitrogen (nes) ....Oct. *149
Loader — Side loader attachment (nes) ....April *125

M

Machinery—You're getting better machines. John V. Ziemba ....March *89
Maintenance—Plastic tanks save floor space, cut maintenance ....Dec. *73
Management
Big developments seen in '70's ....Jan. 66
Borden frees funds (tm) ....June 29
Cautions consumers (tm) ....Sept. 29
Challenge of '70's capitalize on consumerism. Frank K. Lawler ....Jan. 55
Computer aids ham plant (tm) ...April 23
Computer aids nut business (tm) ..Jan. 23
Computer fills orders (tm) ....March 25
Computerizes research (tm) ....Oct. 33
Convenience foods save 50% (tm) ..Jan. 23
Creates good image (tm) ....Aug. 21
Cuts distribution costs (tm) ....Jan. 23
Don't tell it right (tm) ....Dec. 15
European economy grows (tm) ..March 25
Equate quality to process (tm) ....Dec. 15
Foretell truck accidents (tm) ....Feb. 23
Form world food group (tm) ....May 27
GF searches soul (tm) ....Nov. 33
Gives tips on assurance (tm) ....Aug. 21
Health-care foods boom (tm) ....June 29
Helps families economize (tm) ....Oct. 33
How pacesetter does it (tm) ....Oct. 33
How to stop them from stealing (tm) ....Feb. 23
ISA forms food division (tm) ....June 29
Industry analyzes trends (tm) ....May 27
Industry profit is 2.4% (tm) ....Aug. 21
It's big business (tm) ....July 23
Machinery world-wide (tm) ....March 25
Metric system coming (tm) ....Dec. 15
Minicomputers challenge (tm) ....July 23
Monitor pesticides (tm) ....Dec. 15
Murphy looks ahead (tm) ....March 25
New plants cut costs (tm) ....April 23
Opportunity for bakers (tm) ....Jan. 23
Organize for Latin America (tm) .April 23
Personnel problems seen (tm) ....May 27
Points up waste problem (tm) ....April 23
Portion packing booms (tm) ....July 23
Profits 9% higher (tm) ....May 27
Progress in Germany (tm) ....June 29
Sara Lee quits smoking (tm) ....Oct. 33
Sees 70% gain by '80 (tm) ....Oct. 33
Social value essential (tm) ....Aug. 21
Solving migrant problems (tm) ...Sept. 29
Stop world and get on (tm) ....July 23
Support postal reform (tm) ....Feb. 23
Time to look ahead (tm) ....Jan. 23
To study distribution (tm) ....April 23
Trains audio-visually (tm) ....Sept. 29
Trains skilled workers (tm) ....Nov. 33
Turneth away wrath (tm) ....Nov. 33
Turns whey to profit (tm) ....March 25
Updates frozen food code (tm) ...Nov. 33
What you buy to cost 5-8% more. Kevin J. Hannigan ....Jan. *62
Material Handling
Cuts damage cost 50%. Joseph E. Whalen ....Aug. *98
Floor-to-floor (nes) ....Jan. *130
Meat
Contributes to aroma of cooked chicken (at) ....Sept. *147
18 ideas for progressive packers ....Jan. *84
Engineers versatility in further processing. John V. Ziemba ....Nov. *86
Enhances texture of white turkey meat ....April *149
Essentials of meat loaf production (at) ....Sept. *147
Formulas ... for poultry franks ..May *122
Frozen turnovers in five meat varieties (pp) ....June *51
Meat smoking system (nes) ....April *125
P/H Index: Better way to cure meat. Gerald M. Cooper ....June *82
Sausage pack reflects old time flavor (pp) ....March *64
Speeds frank processing ....April *57
Metal Separator — Metal Separator (nes) ....March *170
Meter
Color meter (nes) ....May *184
Density meter ....Sept. *189
Flow meter (nes) ....Nov. *212
Flow meter (nes ....Jan. *128
Meters and mixes 2 liquids (nes) ..June *142
Sanitary meter mesures flow (nes) .Aug. *122
Metering
Metering pump doesn't clog (nes) .Jan. *124
Remote metering aids quality control ....July *141
Metric Measurements—Metric system coming (tm) ....Dec. 15
Microbe Sample—Automates microbe sampling (at) ....March 141
Microbes—Microbes degrade DDT (at) (A) ....July 133
Microwaves — Microwaves measure moisture ....Sept. *48
Milk
Detects milk rancidity very rapidly (at) ....Oct. 141
Freezing affects milk components (at) ....April *113
Inhibit milk browning (at) ....May 153
Pouch packs milk at 1 cent/quart. March *117
Taps whole new market. Kevin J. Hannigan ....Dec. *40
Tests raw milk quality by resazurin paper (at) ....June *137
Vacuum-dries whole milk continuously ....June *137
Mixer
Double arm mixer (nes) ....July *150
Drum mixer (nes) ....Oct. *151
Horizontal mixer (nes) ....Oct. *149
In-Line mixer (nes) ....July *156
In-Line mixer (nes) ....Oct. *156
Jacketed sanitary mixer (es) ....June *143
Mixer-deaerator (nes) ....Sept. *187
Mixer looks promising ....Nov. *119
Portable mixer (nes) ....Dec. *104
Rapidly mixes viscous foods (nes) ..May *180
Versatile mixer has many uses (nes) ....Nov. *204
Mixes — Pillsbury enriches bakery mixes, bases (i) ....March 57
Moisture Foods — Intermediate-moisture foods retain fresh properties. May 119
Monosodium Glutamate
Launches research/PR program on MSG (i) ....Jan. 51
MSG reported safe (i) ....Sept. *67
Motors—Easy-clean motor (nes) ....Dec. *103

N

New Food Plants
A & P's super plant emphasizes efficiency. Frank K. Lawler and James R. Russo ....Oct. *80
Anheuser-Busch integrates production complex ....Sept. *94
Armour facility is sophisticated ..Sept. *103
Beech-Nut innovates plant and process design ....April *66
Builds 6-in-1 food plant ....Sept. *102
15 new plants reflect progress ....Sept. *99
Hormel opens all-in-one plant ....Sept. *98
Makes cheese in a metal building .Sept. *102
Meets changing needs. Robert P. Dudley and John V. Ziemba ....Sept. *88
Modern processing equipment highlights new plant. Dale A. Bessey. Feb. *69
Nabisco innovations save time and money. John V. Ziemba ....Sept. *80
New center serves 16 states ....Sept. *103
Sanitary showcase ....Sept. *77
Smoothes cranberry processing ....Sept. *79
New Food Products
Adds new cookies in unique packages (pp) ....April *36
Adds tomato drinks in handy six-packs (np) ....Sept. *55
Adds two varieties of dessert cakes (pp) ....Oct. *61
Bake-in tray features see-through lid (pp) ....May *50
Cheesecake comes in individual portions (pp) ....Feb. *42
Coca-Cola adds new mixer line (pp) Jan. *41
Continental desserts for food service (pp) ....Aug. *40
Enhance your foods with instant protein (pp) ....Sept. *54
First low-fat processed meats (pp). Feb. *42
First self-layering pudding dessert (pp) ....Dec. *36
Frozen casseroles fit for a family (pp) ....July *49
Hot snacks come in seven flavors (pp) ....Oct. *60
Instant eggs—just add water (pp) .May *51
Mini-pizzas plus heat 'n serve tray (pp) ....March *65
Morton adds salt substitute (pp) ..Feb. *43
New snack, package reflect fun concept (pp) ....Feb. *42
Now a soft drink that you can eat (pp) ....July *48
Pop sweet rolls into toaster or oven (pp) ....Nov. *61
Sauce, mix pouches utilize surlyn resin (pp) ....March *65
Space candy comes in squeeze capsules (pp) ....March *64

*** Illustrated. (A) Abstract. (e) Equipment. (ed) Editorial. (P) Patents.**

Index to Vol. 42, January, 1970 to December, 1970

Tests new pop-up item: frozen french toast (pp) ..... Jan. *40
Three frozen pies for food service (pp) ..... April *37
Two frosted squares: complete breakfast (pp) ..... Dec. *37
Unique flavors of favorite snacks (pp) ..... Aug. *41
Nitrogen—Liquid nitrogen (nes) .... Jan. *125
No Calories—No-calorie sweetener cuts formula cost (i) ..... Sept. *69
Nozzles—Spray nozzles (nes) ..... Feb. *134
Nutrients—Fermentation nutrients from brewer's yeast (i) ..... Aug. *53
Nutrition
Phony nutritional shock-wave hits bread. Frank K. Lawler ..... Dec. 43
Problem is empty heads, not empty calories ..... Sept. 75
SOS/70 taps world food intelligence. Frank K. Lawler ..... Oct. 67
Times call for new business policies. Nov. 69

O

Odor—Kills outdoor odors (sm) ..... Oct. *164
Oils
Canada limits use of brominated oils (i) ..... March 57
Essential oils guard milk quality (at) ..... Oct. 141
Imitation duplicates natural lemon oil (i) ..... Aug. 58
Orange Juice
Intensifies the color of orange juice (at) ..... April 113
Orange juice carton cuts distribution costs. James R. Russo ..... July *56

P

PVC
Improves bottle clarity (np) ..... March 29
Rigid PVC packages for new hot dogs (pp) ..... Sept. *55
Packager
Bulk packs franks at 600 per min. (np) ..... Sept. *40
Speedy vacuum packer handles many sizes (np) ..... March *31
Packaging
A brand-new 'balloon' test (ppo) .. July 27
A very revealing method (ppo) ... April 25
Aids solid waste management (ppo) ..... April 25
All about shrinkable films (ppo) ... May 33
Announces traveling seminars (ppo). Dec. 17
Anti-litter drive picking up (ppo) . Sept. *31
Barrier-coated board resists fat, water (np) ..... March 29
Better-way sandwich packaging. John V. Ziemba ..... Feb. *116
Calls PVC 'new industry' (ppo) .... Dec. 17
Carbon black aids PE (ppo) ..... June 31
Case-sealing hot melt resists heat, cold (np) ..... Dec. 21
Checks ways to dispose of plastics (ppo) ..... March 27
Contract packs aseptically (ppo) .. July 27
Corrugated gets a boost (ppo) .... Feb. 25
Cuts package loss (np) ..... Oct. *39
Data analysis system . . . controls packaging costs ..... April *118
Fluidic sensors improve packaging. Leonard Trauberman ..... Dec. *66
Food packaging in developing nations. Stanley Sacharow (Part I). Aug. *80
Food packaging in developing nations. Stanley Sacharow (Part II). Oct. *86
Food packaging of the future.—Part I. Dr. C. Olin Ball ..... March *76
Food packaging of the future.—Part II. Dr. C. Olin Ball ..... May 155
For both reference & training (ppo) ..... April 25
For portion packing (np) ..... April *27
Futuristic labels evolving (ppo) ... Feb. 25
Growing use of large plastic pails (ppo) ..... April 25
Hot fills cheese into tear-tape package (np) ..... Jan. 31
Improves bottle clarity (np) ..... March 29
Improves food packer skills (pp) .. May 33
Lowers film-printing costs (pp) ... May 33
MSU surveys dairy packaging (pp). Feb. 25
Makes hot food trays easy to handle (np) ..... Feb. *27
More ties per spool (np) ..... Nov. 39
Musical six-pack boosts glass (ppo) March 27
New ham can is versatile (ppo) .. Aug. 25
New packaging ideas ..... March *100
Night school for packaging (pp) . March 27
Offers films that can breathe (np) . Sept. 35
Okays nylon strapping for pallets (ppo) ..... Nov. 37
One potato, two potato (ppo) .... Aug. 25
Packages, poultry better way ..... April 123
Packer Offers high speed, low cost (np) ..... Dec. *24
Packs flavored syrups in pouches . March *142
Packs seafood at up to 150 CPM (np) ..... April *30
Packs 36 bags per min. with one operator (np) ..... Jan. *29
Pre-printed tape reduces pilferage (np) ..... Sept. *35
Semi-automatic sealer (np) ..... Feb. *29
Shares wealth of ideas (ppo) ..... July 27
6 packaging advances from Europe. Anthony H. Woollen ..... Feb. *72
Skirt design makes cap removal easy (np) ..... Aug. *27
Staples 3-way boxes ..... Feb. 32
Styrene bowl for hot, cold foods (np) ..... Dec. *21
The case for the defense (ppo) .... July 27
The logical 'next' step (ppo) ..... June 31
The long-distance sell (ppo) ..... May 33
The package explosion . . . more to come. Kevin J. Hannigan ..... March *73
3-D beer cans gaining (ppo) ..... Aug. 25
To cut plastic bottle costs (ppo) .. Aug. 25
Trains packaging executives (ppo) . Nov. 37
Trends in aerosol packing (ppo) .. Aug. 25
U.K.'s GRAS is greener (ppo) .... July 27
Updates food service labels (ppo) .. Dec. 17
Versatile large tub (np) ..... Feb. 27
What's coming in plastics for food packaging. Dr. Nelson Allen ..... Dec. *47
Wins P.I.'s corporate award (ppo) . Dec. 17
You're getting better machines. John V. Ziemba ..... March *89
Packaging Equipment
Baggers — Speeds packaging with twin-tube bagger (dib) ..... Jan. *107
Cans—More metal cans used in '69 . Nov. 37
Cartons
Milk-type cartons (nes) ..... Jan. *125
New snack comes in wrap-around carton ..... Nov. *61
Package graphics tell product story (pp) ..... Dec. *37
Caser
Automatic caser fits many needs (np) ..... June *36
Handy case former (np) ..... May *41
Closures
Closes mixed cases at high speed (np) ..... Nov. *46
Has fewer actions (np) ..... June *36
Fillers
New aseptic filler (np) ..... May *38
For viscous items (np) ..... Aug. *31
Hot fills cheese into tear-tape packages (np) ..... Jan. 31
Redesigns filler (np) ..... Aug. *28
Labels—No-tear labels (np) ..... Aug. 27
Poucher—Low cost poucher packs unit servings (np) ..... Aug. *31
Pouches—Pouch packs milk at 1 cent/quart ..... March *117
Printer—Codes & prints case's four sides (np) ..... May *37
Sealer—Hot melt case sealer seals tops, bottoms (np) ..... May *37
Unloader—Glass unloader controls case flaps (np) ..... May *37
Wrapper
High-speed wrapper makes pillow packs (np) ..... May *41
Unit shrink wraps 50 pallets/hr. (np) ..... July *33
Wraps cans in film (np) ..... July *31
Wraps most shapes at up to 84/min. (np) ..... April *29
Packaging Machines—Packs food in milk cartons (np) ..... Oct. *40
Packaging Materials
Adhesives—Ease clean-up job (np). Aug. 27
Aluminum
Chinese foods come in heat and serve trays (pp) ..... Sept. *54
Vegetables come in see-through packages (pp) ..... Aug. *41
Bags
Bananas come in printed, PE bags (pp) ..... May *51
Chain of bags aids meat packing (np) ..... May 35
New wrap for apples: decorated bags (pp) ..... June *51
Roast-in bags offer optimum convenience (pp) ..... April *36
Square-end PE bags for potatoes, onions (pp) ..... Nov. *60
Bottles
New syrup package: polypropylene bottle (pp) ..... Oct. *61
Thermoforms plastic bottles ..... Jan. *32
Tools up for clear PP bottle (ppo) . Oct. 37
Boxes—Hot-food boxes (np) ..... June *35
Cans
Aluminum can in demand (ppo) ... Feb. 25
Gold in them thar cans? (ppo) ... June 31
In Canada: deposits on beer cans (ppo) ..... Oct. 37
Packs desserts as snacks. Mary Feilke ..... April *40
Salad oil comes in ring-pull cans (pp) ..... Jan. *40
Tin can gained in '69 (ppo) ..... Sept. 31
Caps—Put foil caps on beverage bottles (np) ..... Aug. *28
Cardboard—British-style cone for fish & chips (np) ..... July 29
Cartons
Carrier allows for variations in bottle size (np) ..... June 35
Dispenser handles most foam egg cartons (np) ..... Feb. *29
Improves protective properties of corrugated. Herman Weindel ... March *79
New cartons brighten product category (pp) ..... May *51
Orange juice carton cuts distribution costs ..... July *56
Simple carton former (np) ..... Feb. 35
Cartoners—New cartoners offer many options (np) ..... Sept. *[illegible]
Casing
Eases casing tasks (np) ..... June *36
Has real appeal (np) ..... Nov. *39
Improved casing (np) ..... May *35
Checkweighers—Checks can weights with computer control (np) ..... July *31
Closures—Tamperproof closure just snaps on (np) ..... March *29
Containers
Custom containers made on filling line (np) ..... Dec. *21
Frozen food dish heats in any oven (np) ..... Nov. 39
Giant-sized food container has clear or opaque lid (np) ..... Jan. *27
Milk dispenser/container saves nearly 10% (np) ..... May *35
Plastic ham can ..... March *50
Steel drums 'recycled' too (ppo) .. Sept. 31
Stock containers with custom look (np) ..... July *29
Styrene juice bottles ..... March *51
Things go better with plastic (ppo). Jan. 25
Uses pure-pak carton for aseptic packing (pp) ..... July *49
Fillers—To test super glass filler (pp) ..... June 31
Films
Film barrier is selective (ppo) .... Nov. 37
Making tomorrow's package. Dr. Douglas F. Percival ..... July 41
Two films added (np) ..... July 29
Foil
Patterns in foil (np) ..... Nov. 39
Speeds reheating (np) ..... Aug. *27
Glass—Chemicals to strengthen glass (pp) ..... Nov. 37
Jugs—Offers acrylic polymer maple syrup jugs (np) ..... Jan. *27
Lids—For better lids (np) ..... July 29
PVC—Rigid PVC packages for new hot dogs (pp) ..... Sept. *55
Plastic
Packs aseptically (np) ..... June *38
Pail's molded ribs protect cover (np) ..... June *35
Plastic boil-in-trays ..... March *51
Plastic tubs are taller, smaller (np). Oct. *39
Rigid plastic trays double product sales (pp) ..... Jan. *41
Sausage pack reflects old time flavor (pp) ..... March *64
Sealable plastic cup for packaged drinks (np) ..... April *27
Shipping system is plastic/corrugated (np) ..... April *27
Table-ready package for shrimp cocktail (pp) ..... July *48
Tougher plastic jars (np) ..... Dec. 21
Pouches
Single-serve pouch for sky-highballs (ppo) ..... Jan. 25
Space candy comes in squeeze capsules (pp) ..... March *64
Packing—Gas or vacuum packing? Stanley Sacharow ..... March *83
Palletized—Automatic drum palletizer (nes) ..... Dec. *106
Palletizer
Easy does it . . . without pallets .. April *70
Stokely automates handling. H. H. Young and Ken Carlson ..... Oct. *72
Palletizing—Converts bulk boxes for palletizing (pi) ..... Aug. *91
Pallet
Lightweight plastic pallet (nes) ... Nov. *204
Pallet (nes) ..... June *152
Pallet bagger (nes) ..... Nov. *206
Pallet racks (nes) ..... June *157
Plastic pallet (nes) ..... May *191
Plastic pallet (nes) ..... April *133
Plastic pallet (nes) ..... Oct. *152
Shrink-wraps palletloads. James R. Russo ..... Aug. *66
Panels
Modular panels (nes) ..... July *156
Porcelain-on steel panels (nes) .... Nov. *212
Saves with easily installed plastic panels (pi) ..... June *105
Paperboard—Re-uses paper fibre (np). Sept. 35
Pasteurizing—Polyphosphates aid egg pasteurizing (i) ..... July *59
Peanuts—Simulates black walnuts .. Sept. *60
Pesticides—Monitor pesticides (tm) .. Dec. 15

Plant Construction—Design for minimum costs. G. Robert Johnson ..Sept. *84
Plant Operation—From kitchen to plant operation .....Jan. *79
Plant Sanitation—Duplicate plant inspection programs costly. Frank K. Lawler .....Aug. 59
Plant Services—9 plant engineering aids .....Sept. *142
Plastic
Lightweight-plastic pallet (nes) ...Nov. *204
Saves with easily installed plastic panels (pi) .....June *105
Stores orange pulp in plastic tank (dib) .....June *122
Thermoforms plastic bottles .....Jan. *32
Things go better with plastic (ppo).Jan. 25
Tie with wire ribbon (np) .....Jan. *27
Tools up for clear PP bottle (ppo).Oct. 37
Uses over 10,000 plastic trays (dib).April *104
Plastics
Checks ways to dispose of plastics (pp) .....March 27
What's coming in plastics for food packaging. Dr. Nelson Allen ....Dec. *47
Poisoning—Reduce food poisoning of meat products (at) (A) .....Dec. *99
Pollution
Cuts water use 50%. Walter A. Mercer .....July *86
Pollution control system on tour (nes) .....Jan. *124
Pollution Laws Stiffen .....July 89
Prevents whey pollution recovers profitable by-products. Bernard S. Horton .....July *81
Removes water pollutants .....Jan. *139
Polyethylene—Square-end PE bags for potatoes, onions (pp) .....Nov. *60
Polystyrene—How to win . . . at 'the old shell game.' Kevin J. Hannigan .....March *54
Portion Packs—Offers portion-pack systems (ppo) .....Oct. 37
Potatoes
Idaho ships potatoes in bulk .....June *46
Improves extruded potato products (i) .....Oct. *55
Poultry
Gently debones poultry. James R. Russo .....Feb. *98
Machine cuts poultry. Rex E. Childs.Nov. *84
Origin of aroma in fat of cooked poultry (at) .....Aug. *117
Packages poultry better way .....April 123
Reduces BOD of process effluent 70% (dib) .....Oct. *119
Practical Ideas
Armour color codes meat-spice cartons (pi) .....March *109
Camera solves tough production problem (pi) .....March *109
Conveyor saves space (pi) .....April *83
Extends the reach of truck forks (pi) .....May *105
Simplifies calibration of pressure gage (pi) .....March *110
Sonar level-control system improves packaging of different semi-solids (pi) .....May *105
Speeds filling of broth flasks (pi) .April *83
Turns empty cartons into salvage profit (pi) .....April *83
Printer—Makes flexography more flexible (ppo) .....Jan. 25
Process—Advances dressing process. V. R. Carlson .....Dec. *51
Processing
Advances in Europe. Anthony H. Woollen .....Nov. *76
Computerized analysis speeds process control. D. T. Winski .....May *88
Conference reports processing advances .....June *94
Engineers versatility in further processing. John V. Ziemba .....Nov. *86
Equate quality to process (tm) ....Dec. 15
Low-cost protein from natural gas. John V. Ziemba .....July *112
Miniaturizes R&D. H. W. Ockerman and V. R. Cahill .....Oct. *94
Modern processing equipment highlights new plant. Dale A. Bessey..Feb. *69
On line instruments control juice color, brix .....Aug. *70
Partially process tomatoes for storage .....June *93
Reduces BOD of process effluent 70% .....Oct. *119
Researchers probe process improvements .....Nov. *129
Saves many ways with central lubrication (dib) .....March *129
Simulates black walnuts .....Sept. *60
Speeds frank processing .....April *57
Stainless steel modernizes winemaking .....Jan. *108
Teams digital control with advanced process .....Aug. *73
Teams processors with growers. Frank K. Lawler .....Feb. *65
Thermal processing goes fully automatic. R. R. Proctor and John V. Ziemba .....April *51
Time-motion study improves processing. Gwil O. Evans and William F. Engesser .....Jan. *81
Processing Center—Armour facility is sophisticated .....Sept. *103
Processing Checklist—Keep process up-to-date .....Nov. 83
Processing Plants—Builds 6-in-1 food plant .....Sept. *102
Product development checklist .....May *96
Proofer — Microwaves proof donuts (nes) .....Aug. *122
Proportioning—Simplifies proportioning. James R. Russo .....Dec. *87
Protein
Compares diet values of sorghum fractions (at) (A) .....Dec. *99
Enhance your foods with instant protein (pp) .....Sept. *54
High protein drinks for hungry world .....April *91
Improves properties of textured proteins .....July *161
Low-cost protein from natural gas. John V. Ziemba .....July *112
Process enriches cassava with protein. J. Strasser, J. A. Abbott and R. F. Battey .....May *112
Protein and lactose from whey ....Nov. *75
Whey-protein isolate improves many foods (i) .....Nov. *53
Protein Concentrate — Forms stable FPC (at) .....Jan. *120
Puddings—Bases ease processing of freezable puddings (i) .....Jan. 51
Pump
Food pump (nes) .....Jan. *125
High pressure pump (nes) .....Oct. *151
Meters butter sauce with simple pump (dib) .....Feb. *103
Peristaltic pump (nes) .....May *194
Pump (nes) .....May *191
Sanitary pump (nes) .....June *174
3A sanitary pump (nes) .....April *125
Trash pump (nes) .....July *152
Purification—Purification System (at) Sept. *147

Q

Quality Control
Remote metering aids quality control .....July *141
Teams quality control with advanced processes .....Nov. *71

R

Railcar—Helps prevent shipping damage (nes) .....April *124
Rails—Quick-change guide rails (nes).Nov. *205
Recorder—Miniature recorder (nes) ..July *149
Refrigeration
Dual-chilling more effective .....May 46
How to save on refrigeration. Ron Cole .....Dec. *64
Low-cost truck refrigeration (nes).Nov. *204
Regulator — Temperature regulator (nes) .....July *149
Research
Better products for a better world. Kevin J. Hannigan, Part 1 .....Jan. *63
Better products for a better world. Kevin J. Hannigan, Part II .....Feb. *75
Miniaturizes R & D. H. W. Ockerman and V. R. Cahill .....Oct. *94
Researchers probe process improvements .....Nov. *129
Reverse Osmosis
Reverse osmosis (nes) .....May *184
Reverse osmosis system (nes) .....Feb. *134
Reverse osmosis system field-tested. Feb. *152
Reverse osmosis system (nes) .....Nov. *212
Rice—Find new protein in rice (at) .Aug. *117
Rolls—Pop sweet rolls into toaster or oven (pp) .....Nov. *61
Roofs—Proves efficiency of urethane roof insulation (dib) .....Sept. *133
Rotameter—Rotameter (nes) .....Feb. *138

S

Safety
Guards rotary grill against flame loss (dib) .....Dec. *95
Radioisotope tracing: For additive safety .....May *91
Salad Dressings—These salad dressings are really creamy. W. K. Stone and P. M. Large .....May *79
Salmon—Extends storage life of salmon steaks (at) .....Sept. 147
Salmonellae
Check salmonellae outbreaks (at) ..Oct. *141
Kills salmonellae in egg products (at) .....Feb. 119
Salting—New methods cut cost. Dave Flanagan and J. W. Reynolds ...Aug. *94
Sanitary Construction Checklist—Check built-in sanitation .....Sept. *104
Sanitation
For better sanitation (pi) .....Oct. *103
New epoxy filler resists microbes (sm) .....Oct. *163
QC and sanitation key efficient production. John V. Ziemba .....June *88
Saves with total-cleaning concept. Leonard Trauberman .....June *91
Sanitation & Maintenance
Automates cleaning (nes) .....June *161
Automates fly killing (sm) .....Aug. *133
Automates sanitizing (sm) .....April *144
Biodegradable cleaner is effective, economic .....Feb. *149
Cleans meat hooks (sm) .....May *207
Cleans meat hooks automatically (sm) .....Sept. *253
Combines insecticide with deodorant (sm) .....Sept. *201
Curbs roof leaks during rain or snow (sm) .....Jan. *140
Detects leaks (sm) .....Nov. *220
Disposes waste pollution-free (sm) .July *163
Does double duty (sm) .....May *207
Electrical tape has useful properties (sm) .....Sept. *204
Eliminates odors at low cost (sm).March *185
Extinguishes fire, leaving no mess (sm) .....Oct. *163
Floor resurfacer is durable, easy to use (sm) .....Aug. *132
Hand lotion conditions and cleans skin (sm) .....July *164
Keeps filler areas bacteria-free (pi).Nov. *113
Kills outdoor odors .....Oct. *164
Locates leaks in vacuum systems (sm) .....Aug. *132
Lubricant withstands temperature extremes (sm) .....March *185
Makes difficult cleaning easy. Lawrence Carpenter and Richard Loevinger .....Dec. *68
Melts ice instantly (sm) .....Dec. *111
Melts icy surfaces (sm) .....Feb. *149
New cleaner has many uses (sm) ..Jan. *140
150-per min. cleaner is compact (sm) .....March *183
Pad holder simplifies plant cleaning (sm) .....Nov. *218
Patching concrete sets rapidly (sm).July *164
Potent fungicidal paint resists discoloration (sm) .....April *146
Purifies effluents (sm) .....March *183
Removes rust readily (sm) .....Nov. *218
Repairs concrete (sm) .....March 185
Resurfaces roofs at low cost (sm) .June *161
Resurfaces stairs (sm) .....Dec. *111
Rust-proof coating saves equipment cost (sm) .....Dec. *111
Safety crushes glass bottles (sm) ..Oct. *164
Sets ceramic tile (sm) .....Nov. *220
Spray-on roof coating is pliable, durable (sm) .....May *209
Sterilant kills weeds (sm) .....April *146
Telescope platform has built-in advantages (nes) .....June *161
Training films show food handling sanitation (sm) .....Jan. *140
Urethane panel resists high water pressure (sm) .....July 163
Versatile cleaner is phosphate-free (sm) .....Aug. *133
Zinc coating available in spray cans (sm) .....Dec. *112
Sauces
Gourmet sauces for creative cookery. John V. Ziemba .....Jan. *44
Sauces, mix pouches utilize surlyn resin (pp) .....March *65
Scale
Batching scale (nes) .....Sept. *195
Electronic scale (nes) .....Feb. *128
Truck weighing scale (nes) .....April *134
Scanner—Laser scanner (nes) .....Feb. *132
Screens—Vibratory screen (nes) .....Dec. *103
Sealant—Sealant (nes) .....Jan. *125
Sealer
Makes cases as needed (np) .....Jan. *29
Seals bottles without contact .....June *180
Seals film bags (np) .....Oct. *44
Seals without lines (np) .....March *31
Semi-automatic sealer (np) .....Oct. *47
Semi-automatic sealer (np) .....Feb. 29
Total shrink system (np) .....Sept. 36
Sensor
Fluidic proximity sensor .....May *181
Particle sensor (nes) .....Dec. *106
Ultrasonic sensor (nes) .....May *184
Separator
Clarified faster in less space. C. R. Havighorst .....Dec. *56
Uses magnets to guard product and equipment (dib) .....Oct. *119
Shearing—Teams coil shearing with can making. John V. Ziemba ....July *123
Shipper—Idaho ships potatoes in bulk.June *46
Shrimp—Time-motion study improves processing. Gwil O. Evans and

*** Illustrated. (A) Abstract. (e) Equipment. (ed) Editorial. (P) Patents.**

Index to Vol. 42, January, 1970 to December, 1970

William F. Engesser .....Jan. *81
Shrink Film—Shrink-wrap stabilizes loads. James R. Russo .....Dec. *62
Shrink Wrapping—Makes shrink-wrapping a complete system (np) ...Nov. *41
Sifter—Pressure sifter (nes) .....Oct. *149
Snacks
New snack comes in wrap-around carton .....Nov. *61
Packs Desserts as snacks. Mary Feilke .....April *40
Smoothes snack-coating. Dean Southworth and John V. Ziemba .....May *82
Unique flavors of favorite snacks (np) .....Aug. *41
Solar—Solves solar problems .....Feb. *121
Soybean
Aids soya hydration (at) .....June *138
USDA develops soy beverage (i) ..Oct. *55
Soy Beverage—Develops soy beverage process .....Nov. *92
Soy Protein
Makes baked goods more nutritious. L. D. Williams, E. Sipos, and J. V. Ziemba .....Dec. *59
60% Protein soy flour enhances baked goods (i) .....Dec. *31
Textured soy protein made by compaction (i) .....Nov. 55
Space Saver—Sliding packing table saves space (pi) .....Aug. *91
Spectrometry—Computerizes mass spectrometry. Dr. R. Erickson and P. Vallon .....Oct. *130
Spices—Spices at a glance .....May 84
Spray Cleaner—Cleans meat hooks automatically (sm) .....Sept. *203
Spray Drying—Teams quality control with advanced processes .....Nov. *71
Stacker—Case stacker (nes) .....Sept. *191
Starch
Modified starch improves economy, efficiency of cast cream-center, caramel production (i) .....June 63
New opaque starch for gravies (i)..Feb. *57
Specialty starch aids can filling (i).Nov. 55
Statistics
Executives look at '70. Frank K. Lawler .....Jan. *57
Washington views shape of '70s. George Baker .....Jan. *60
Steel—Stainless steel modernizes winemaking .....Jan. *108
Sterilization
Computes HTST processes .....Nov. *91
Injector instantly heats water 50 deg. (pi) .....Nov. *113
Storage
Extends storage life of salmon steaks (at) .....Sept. *147
Fiberglas walls (nes) .....Dec. *103
Strainer
In-line strainer (nes) .....Feb. *138
Strainer (nes) .....Dec. *103
Stuffer
Stuffer (nes) .....Feb. *138
Ups stuffing efficiency (dib) .....April *103
Sugar—Keeps sugar free-flowing ....Oct. *88
Syrup
Detect trace flavors in maple syrup (at) .....April 113
New syrup package: polypropylene bottle (pp) .....Oct *61

T

Tank
Container holds 225 gal. (nes) ....Oct. *148
Expand to fit need .....Sept. *200
Fiberglass tank (nes) .....Feb. *129
Plastic tanks save floor space, cut maintenance .....Dec. *73
Storage tanks (nes) .....June *148
Stores orange pulp in plastic tank (dib) .....June *122
Tape
Pre-printed tape reduces pilferage (np) .....Sept. *35
Teflon tape (nes) .....Sept. *189
Tapioca—Process cuts cost of tapioca dextrins (i) .....April 47
Technology
Automates cheese production (at) ..Nov. *135
Causes and prevention of egg discoloring (at) (A) .....July 133
Check salmonellae outbreaks (at) ..Oct. *141
Contributes to aroma of cooked chicken (at) .....Sept. *147
Curb citrus decay (at) .....Nov. *135
Debitters yeast by new method (at).May 153
Detects milk rancidity very rapidly (at) .....Oct. 141
Essential oils guard milk quality (at) .....Oct. 141
Essentials of meat loaf production (at) .....Sept. *147
Extend shelf-life of peach slices (at).May 153
Extends storage life of salmon steaks (at) .....Sept 147
FFA affect flavors (at) .....May 153
Freezing affects milk components (at) .....April *113
Harvest fish electrically (at) .....Sept. 147
Inhibit milk browning (at) .....May 153
Inhibits bloom in chocolate (at) ..April 113
Purification system (at) .....Sept. *147
Rapid density test for candy (at) .Oct. *141
Reduces viscosity of cocoa butter (at) .....March 141
Spots various forms of vitamin E (at) .....March 141
Stability factors in egg emulsion (at) .....April 113
Strip high-boiling flavors (at) ....Aug. *117
What to know about clean room technology. Carl R. Havighorst ..Sept. *91
Temperature—Tells temperature in can .....April *166
Tester
Moisture tester (nes) .....Nov. *206
Tests carcass tenderness .....April *138
Thermometer
Infrared (nes) .....Sept. *189
Infrared thermometer (nes) .....Sept. *187
Radiation thermometer (nes) .....Dec. *107
Time-Sharing—Time-sharing fills special needs .....July *135
Tomato
Adds tomato drinks in handy six-packs (np) .....Sept. *55
Partially process tomatoes for storage .....June *93
Tortillas—Counts, stacks tortillas ....Oct. *113
Trailers—Hauls mixed loads in convertible vans (dib) .....April *103
Train—Ships juice in unit train .....Sept. *208
Transmitter
Liquid level transmitter (nes) ....Nov. *205
New line (nes) .....Sept. *197
Transportation—Versatile 'in plant' Transportation .....Oct. *77
Trays
Chinese foods come in heat-and-serve trays (pp) .....Sept. *54
Plastic boil-in trays .....March *51
Rigid plastic trays double product sales (pp) .....Jan. *40
Styrene-foam trays permit pre-packing (np) .....Oct. *39
Tray-loads cups (np) .....July *33
Uses over 10,000 plastic trays (dib).April *104
Trucks
Electric hand truck (nes) .....April *125
Hand truck (nes) .....April *133
Low-cost truck refrigeration (nes).Nov. *204
Plastic utility truck (nes) .....June *143
Versatile 'in plant' transportation .Oct. *77
When power pays in hand-operated trucks .....Feb. *101
Tubing—Tool cuts tubing in one motion (pi) .....June *105
Tunnel—Shrink tunnel (nes) .....Oct. *149

U

Unit Operations—What to watch in unit operations. Frank K. Lawler.Nov. *100
Unloader—Unloads bags, conveys material (nes) .....Aug. *122

V

Vacuum—Vacuum or pressure (nes) .July *149
Vacuum Drying—Vacuum-dries whole milk continuously (at) .....July *137
Vacuum Packs—Gas or vacuum packing? Stanley Sacharow .....March *83
Valves
Sanitary ball valve (nes) .....May *181
Sanitary valves (nes) .....April *129
Tie nut simplifies turning valve (nes) .....July *148
Valve easily installed (nes) .....Sept. *186
Valve easily installed, removed (nes) .....April *124
Vapor—Mercury vapor (nes) .....Sept. *191
Vegetables—Detinning rates for canned spinach (at) .....Feb. *119
Vibrator
Air vibrator (nes) .....July *150
Mobile vibrator (nes) .....Sept. *199
Vinegar—Advances vinegar production. James A. Rowse, David F. Rowse, and Julius Brody .....June *86
Viscometer—In-line viscometer (nes).Nov. *212
Vitamins—New-form vitamin D is doubly effective (i) .....April 46

W

Walnuts—Simulates black walnuts ..Sept. *60
Warehouse—Lights warehouse efficiently. Albert M. Alter .....Jan. *96
Warehousing
Warehouse conversion saves $300,000. Gordon R. Whitman and Julius Brody .....Dec. *89
Warehouse without aisles .....April *55
Washer—Bottle washer saves detergent (ppo) .....Oct. 37
Waste
Action on the waterfront GF's 'good neighbor' policy. Robert E. Cerosky .....July *78
Aids solid waste management (ppo) April 25
Treats wastes with floating aerators (dib) .....July *117
Waste Treatment
Cleaning-up waste water .....July *65
Disposal developments aid processors .....July *76
Pollution laws stiffen .....July 89
Waste Water
Action on the waterfront GF's 'good neighbor' policy. Robert E. Cerosky .....July *78
Advances fruit-waste treatment. James A. Rowse, Samuel B. Rowse and Julius Brody .....July *84
Prevents whey pollution recovers profitable by-products. Bernard S. Horton .....July *81
Water—Cuts water use 50%. Walter A. Mercer .....July *86
Water Treatment—Ingredient water: analytical requirements. Julius Brody .....May *94
Weigher—Weighs accurately without contact .....Oct. *124
Whey
Demineralized whey has 35% protein (i) .....Dec. *31
Prevents whey pollution recovers profitable by-products. Bernard S. Horton .....July *81
Probe new uses for whey .....Aug. 36
Protein and lactose from whey ....Nov. *75
Turns whey to profit (tm) .....March 25
Whey-protein isolate improves many foods (i) .....Nov. *53
Wrapper
Heavy-duty bundler (np) .....Jan. *31
Random lengths (np) .....Oct. *47
Wraps boxes, trays (np) .....Sept. 36

Y

Yeast
Debitters yeast by new method (at).May 153
Yeast is grown on hydrocarbons (at) .....Feb. 119

AUTHOR'S INDEX

January to December, 1970

A

Abbott, J. A. and others—Process enriches cassava with protein .....May 112
Aceto, N. C. and others—Converts collagen to food additives .....Nov. *125
Allen, Nelson, Dr.—What's coming in plastics for food packaging .....Dec. *47
Alter, Albert M.—Lights warehouses efficiently .....Jan. *96
Anderson, E. E. and others—Freeze-dries applesauce .....Nov. 136

B

Baillie, J. D.—Innovates fillet contact freezing .....Oct. *137
Baker, George—Washington views shape of '70s .....Jan. *60
Ball, Olin C., Dr.—Food packaging of the future, Part I .....March *76
Food packaging of the future, Part II .....May 155
Battey, R. F. and others—Process enriches cassava with protein .....May 112
Baumruk, W.—Forms product while filling into cans .....April *88
Bessey, Dale A.—Modern processing equipment highlights new plant ..Feb. *69

Brody, Julius and others—Advances fruit-waste treatment .....July *84
Advances vinegar production .....June *86
Ingredient water: analytical requirements .....May *94
Warehouse conversion saves $300,000.Dec. *89

C

Cahill, V. R.—Miniaturizes R&D ....Oct. *94
Carlson, Ken—Stokely automates handling .....Oct. *72
Carlson, V. R.—Advances dressing process .....Dec. *54
Carpenter, Lawrence—Makes difficult cleaning easy .....Dec. *68
Cerosky, Robert E.—Action on the waterfront—GF's 'good neighbor' policy .....July *78
Childs, Rex E.—Machine cuts poultry.Nov. *84
Christgau, Ronald V.—13 ways to ruin a gear reducer .....June *128
Cole, Ron—How to save on refrigeration .....Dec. *64
Cooper, Gerald M.—P/HI Index: Better way to cure meat .....June *82
Criz, D. S. and others—Freeze-dries applesauce .....Nov. 136
Cruse, Robert R.—How to make citrus whole fruit puree .....June *109

D

Dinnage, Derek F.—Multi-stage evaporation gives 4:1 steam efficiency.April *62
Dritschel, M. E.—How to evaluate margarine quality .....Oct. *90
Dudley, Robert P.—Meets changing needs .....Sept. *88

E

Earls, Clifford D.—Really big 'kitchen' operation .....June *71
Elias, E. and others—Converts collagen to food additives .....Nov. *125
Engesser, William F.—Time-motion study improves processing .....Jan. *81
Erickson, Dr. R.—Computerizes mass spectrometry .....Oct. *130
Evans, Gwil O.—Time-motion study improves processing .....Jan. *81

F

Feilke, Mary—Packs desserts as snacks .....Apr. *40
Fischer, John J.—Continuous blending enters new era .....Aug. *82
Flanagan, Dave—New methods cut costs .....Aug. *94
Fredette, Leo J.—Aluminum trays spur food service growth .....March *112

H

Hannigan, Kevin J.—Better products for a better world .....Jan. *63
How to win . . . at 'the old shell game' .....March *54
Platters for children .....Dec. *45
Research in the '70s .....Feb. *75
Taps whole new market .....Dec. *40
The package explosion . . . more to come .....March *73
What you buy to cost 5-8% more ..Jan. *62
Hargreaves, E. M.—Computer controls blending of 44 ingredients .....Nov. *96
Freeze-drying pioneer makes comeback .....June *75
Havighorst, Carl R.—Automates popcorn production .....Dec. *76
Clarifies faster in less space .....Dec. *56
Radical innovation in freeze-drying.June *134
What to know about clean room technology .....Sept. *91
Hayes, Larry—Really big 'kitchen' operation .....June *71
Horton, Bernard S.—Prevents whey pollution—recovers profitable by-products .....July *81
Hoyle, D. L.—Feedforward control improves evaporation .....July *100

J

Jakob, Carol A.—Dietary foods: from soup to nuts .....May *134
Outstanding food packages of 1969.March *50
Johnson, G. Robert—Design for minimum costs .....Sept. *84
Johnson, K. R. and others—Freeze-dries applesauce .....Nov. 136

K

Knepper, Will—Purifies process air ..Jan. *122
Komanowsky, M. and others—Converts collagen to food additives .....Nov. *125
Koyama, Eiji—Freeze drying gaining slowly in Japan .....Jan. *103

L

Lawler, Frank K.—A & P's super plant emphasizes efficiency .....Oct. *80
Big developments seen in '70s .....Jan. 66
Challenge FDA's move to rule on nutritive values (ed) .....March 71
Challenge of '70's—Capitalize on consumerism (ed) .....Jan. 55
Duplicate plant inspection programs costly (ed) .....Aug. 59
Executives look at '70 .....Jan. *57
Freeze-drying pioneer makes comeback .....June *75
Instrumentation is cutting edge of progress (ed) .....June 69
Look at products with profit potential (ed) .....Apr. 49
Phony nutritional shock-wave hits bread (ed) .....Dec. 43
Problem is empty heads, not empty calories (ed) .....Sept. 75
Pure fish protein .....Aug. *61
SOS/70 taps world food intelligence (ed) .....Oct. 67
Super-affluence will bring big changes in '70s (ed) .....Feb. 63
Teams processors with growers ....Feb. *65
Times call for new business policiies (ed) .....Nov. 69
You wouldn't like Nader's kind of FDA (ed) .....May 71
Why don't universities defend food industry? (ed) .....July 63
Lime, Bruce J.—How to make citrus whole fruit puree .....June *109
Lipman, Ed—Simplifies heavy handling .....June *139
Loevinger, Richard—Makes difficult cleaning easy .....Dec. *68

M

Mercer, Walter A.—Cuts water use 50% .....July *86
Moore, Charles Dr.—Update process control with digital computer ..June *118

N

Nisenfeld, A. E.—Feedforward control improves evaporation .....July *100

O

Ockerman, H. W.—Miniaturizes R&D.Oct. *94

P

Palmer, Dennis—Computerizes packaging .....Oct. *74
Percival, Douglas, Dr.—Making tomorrow's package .....July 41
Proctor, R. R.—Thermal processing goes fully automatic .....Apr. *51

R

Rahman, Abdul R. and others—Freeze-dries applesauce .....Nov. 136
Reynolds, J. W.—New methods cut costs .....Aug. *94
Richards, D. F.—Latest in employee facilities .....Sept. *114
Riggin, William H.—Heat shucks clams .....Aug. *89
Rondenet, Gene—Creates unique cheese and butter flavors .....Oct. 69
Rowse, David F. and others—Advances vinegar production .....June *86
Rowse, James A. and others—Advances fruit-waste treatment ....July *84
Advances vinegar production .....June *86
Rowse, Samuel B. and others—Advances fruit-waste treatment ...July *84
Ruff, A. W.—Pneumatic conveying paces efficient freezing, bin storage .....June *84
Russo, James R.—A & P's super plant emphasizes efficiency .....Oct. *80
Computerizes packaging .....Oct. *74
Gently debones poultry .....Feb. *98
Gives packages more protection ....Oct. *64
Orange juice carton cuts distribution costs .....July *56
Shrink-wrap stabilizes loads .....Dec. *62
Shrink-wraps pallet loads .....Aug. *66
Simplifies proportioning .....Dec. *87

S

Sacharow, Stanley—Food packaging in developing nations, Part I .....Aug. *80
Food packaging in developing nations, Part II .....Oct. *86
Gas or vacuum packing? .....March *83
Practical pointers on folding cartons .....Jan. *72
Schmidt, T. R. and others—Freeze-dries applesauce .....Nov. 136
Sinnamon, H. I. and others—Converts collagen to food additives .....Nov. *125
Sipos, E.—Makes baked goods more nutritious .....Dec. *59
Southworth, Dean—Smoothes snack-coating .....May *82
Strasser, J. and others—Process enriches cassava with protein .....May 112

T

Trauberman, Leonard—Aids product formulation .....Feb. *105
Fluidic sensors improve packaging .Dec. *66
Saves with total-cleaning concept .June *91

V

Vallon, P.—Computerizes mass spectrometry .....Oct. *130
Verwey, Richard A.—Continuous blending enters new era .....Aug. *82
Volan, Ray—Improves cooking of semi-solids .....Nov. *94

W

Wallenstein, Howard M.—Digital computer closes control loop .....Aug. *76
Webb, B. H.—New dairy foods: opportunities and obstacles .....Aug. 104
Weindel, Herman—Improves protective properties of corrugated ..March 79
Whalen, Joseph E.—Cuts damage cost 50% .....Aug. *98
Willett, Roslyn—Food-service packaging keeps pace with change ...March *135
Williams, L. D.—Makes baked goods more nutritious .....Dec. *59
Winski, D. T.—Computerized analysis speeds process control .....May *88
Wolf, Andrew—At Sara Lee computer controls quality .....Dec. *50
Woollen, Anthony—Advances in Europe .....Nov. *76
6 packaging advances from Europe.Feb. *72

Y

Young, H. H.—Stokely automates handling .....Oct. *72
Ytterberg R. F.—Which floor surface? Part I .....Sept. *125
Which floor surface, Part II .....Oct. *96

Z

Ziemba, John V.—Better-way sandwich packaging .....Feb. *116
Built from scratch .....Jan. *75
Creates unique cheese and butter flavors .....Oct. *69
Engineers versatility in further processing .....Nov. *86
Forms product while filling into cans .....Apr. *88
Gourmet sauces for creative cookery.Jan *44
Improves cooking of semi-solids ...Nov. *94
Low-cost protein from natural gas.July *112
Makes baked goods more nutritious .Dec. *59
Meets changing needs .....Sept. *88
Nabisco innovations save time and money .....Sept. *80
Platters for children .....Dec. *45
QC and sanitation key efficient production .....June *88
R&Ds low-cost dairy-like cheese ....Aug. *48
Smoothes snack-coating .....May *82
Teams coil shearing with can making .....July *123
Thermal processing goes fully automatic .....Apr. *51
Top-quality cultures made in unique plant .....Jan. *68
You're getting better machines ..March *89
